- Safely collaborate to build a VEX IQ robot
- Participate in skills challenges
- Learn about 3-D printing and CNC machining.

Registration Payment is non-refundable. Checks should be made payable to Tri-County ESC.

Details and FAQs

What is the Tri-County STEAM Summer Camp?

The Tri-County STEAM Summer Camp is an engaging multi-day daily camp designed for students in grades 3 - 8. Throughout the course of this camp, students will learn principles of design and engineering to create a remote powered robot using a VEX IQ kit. Students will work and collaborate safely to complete challenges testing students' designs, engineering, and skill.

Who can participate in the camp?

The camp is open to any 3rd through 8th grader in Wayne, Holmes, or Ashland county. However, space is very limited, so register today to reserve your spot!

How much does it cost?

The cost of this camp can vary from year to year, but because of the generosity of the Wayne Economic Development Council, we are able to offer the camp for the following cost:

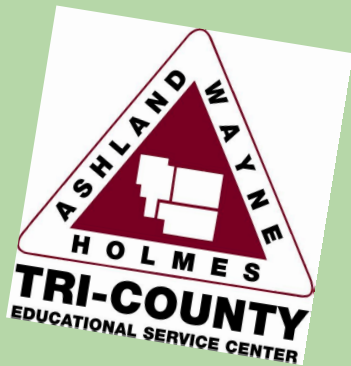

\$50 per participant

What will I learn about?

During your time at the Tri-County STEAM Camp you will learn about engineering, design, and problem solving. However, the most important things you will learn about include collaboration and communication. These two skills are vitally important, and are used throughout the 21st century workplace.

How do I register for camp?

Determine the session for which you would like to register. To register, contact Ann Hendershot at Tri-County ESC (330-345-6771 or tesc_ahendershot@tccsa.net) and submit a non-refundable registration payment. **You are not registered until payment is received. We can only hold your space for two weeks without payment. Make checks payable to Tri-County ESC.**
